

JOHNREX L. GREGORIO

BSIT Student — Aspiring Programmer

09633243089 | johnrexgregorio094@gmail.com
San Enrique, Negros Occidental | github.com/gregorio-johnrex-bsit21

ACADEMIC PROFILE

BSIT student learning IT and programming through hands-on class and personal projects — mostly web and desktop apps. Still building my skills, but I like learning by doing.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript, PHP, Laravel, MySQL
Desktop Development: Python, Tkinter, MySQL
Tools & Platforms: Visual Studio Code, XAMPP, Git, GitHub, Render

ACADEMIC PROJECTS

Web-Based OJT Tracking System

- Built and tested a web-based system for logging OJT hours, tasks, and course requirements.
- Deployed and hosted the project on Render to validate live accessibility and backend performance.

Student Information System (SIS)

- Developed a desktop Student Information System with separate Admin and Student views, each with its own login.
- Implemented full CRUD functionality for student records — adding, editing, deleting, and searching/filtering entries against a local database.

SKILLS & INTERESTS

Basic IT Support: Computer Troubleshooting, Basic Diagnostics & Maintenance
General Skills: Adaptability, Teamwork, Problem-Solving, Learning New Tools
